Benelli TRK 502 2024

Benelli by GIVI luggage system worth £1200 included.

£5,699 +OTR

from **£250.16** p/m

Additional promotion: Benelli by GIVI luggage system worth £1200 will be included with all new Benelli TRK502 and TRK502X or while stocks last.

 TRK 502 is the versatile and modern twin-cylinder Benelli, designed to be the ideal travel companion for all your adventures.

 The engine is the 500cc liquid-cooled four-stroke twin-cylinder engine, developed by Benelli for its latest middle-size creations, with electronic fuel injection, double overhead camshaft timing and 4 valves. Its maximum power is 47.6 hp (35 kW) at 8500 rpm, with torque of 46 Nm (4.6 kgm) at 6000 rpm, synonymous with exceptional smoothness in all conditions and an engine that is always swift and responsive. It has a 6-speed gearbox with final chain drive.

 The bold and expressive lines of TRK 502 are exceptionally eye-catching thanks to a 20-litre capacity fuel tank, a headlight assembly mainly with LED lamps with an enhanced design and a front mudguard capable of dominating the scene. Cutting- edge and eye-catching look, TRK 502 has backlit handlebar switchgears, rear-view mirrors with new design, as well as the new hand grips and practical aluminum pawls positioned under the saddle, now more comfortable and spacious, to allow maximum comfort. The handlebar is adjustable to allow each rider the best riding condition, as well as the clutch lever, which is also adjustable. The steel trellis frame features high-tensile strength steel plates. The suspensions on the front ensure maximum comfort to the rider and passenger, thanks to an upsidedown fork with 50 mm legs and 140 mm travel, and on the back a swinging arm with central monoshock adjustable in the spring preload and hydraulic rebound damping and a travel of 45 mm. The Pesaro manufacturer's latest two-wheeler offers all-round comfort, thanks also to a wide and spacious headlight fairing, able to perfectly protect both the rider and passenger in any riding position.

Stability and accuracy are two TRK 502 keywords, as is attention to safety. The performance of the modulated braking system is exceptional, mainly thanks to the double 320 mm diameter semi-floating disc on the front and four-piston calliper, and a 260 mm diameter disc on the back with a single-piston calliper. The 17" aluminium alloy rims mount 120/70-17 and 160/60-17 tyres for the road version. TRK 502 has a dedicated range of accessories, including aluminum pannier sets, top cases and high windshield.

 The TRK 502 is available in all dealerships in White, Red, Blue Green and Grey.
