Keeway Versilia 125cc 2024

Modern technology in a classically styled scooter.

£1,899 +OTR

from £79.6 p/m

Keeway Versilia 125 perfectly captures the timeless essence of the Italian Riviera, blending luxury and class with modern fashion standards. From the sleek stitched seat to the edgy front and rear lights, every detail of this scooter exudes premium quality. Its bodylines are accentuated by the foot pegs and turn indicators that disappear seamlessly into the design, ensuring that you'll be the one turning heads.

 While style is at the forefront, the Versilia 125 doesn't sacrifice utility. A USB charging port is conveniently located in the locking front compartment, and the rear under seat storage is spacious enough to hold a helmet for those impromptu joy rides. Disc brakes in both the front and rear provide ample stopping power and highlight the elegant multi-spoke wheels. The rear grab rail flows elegantly into a storage rack, finished in the same silver colour as other exclusive details unique to the Versilia 125.
 Full LED lights, including a double-layer LED headlight and a full-width front DRL, provide the modern luxury look without sacrificing visibility. The offset 12-inch wheels are wrapped in 120/70 tires for agile handling, while the locking front compartment is covered and complete with a USB port for easy access. The exhaust heat shield not only adds protection but also complements the Versilia 125's sleek bodylines. The minimalist LED taillight seamlessly flows into the rear, with the signal lights disappearing into the side accent lights. Exclusive silver accent pieces add a touch of elegance to this already refined scooter. The premium stitched seat is exquisitely detailed, with contrasting textures that add to its sophistication. Underneath, there is ample storage to hold a helmet for two-up riding. The retro-styled analog speedometer surrounds a digital information display, adding style and simplicity with just one look.

 The 124.6cc EFI engine is neatly tucked between the rear fenders and mated to an automatic CVT, providing modern power for an unparalleled riding experience. With its classic look, flowing bodylines, and keyless ignition remote key system, the Versilia 125 is designed to be seen with luxury. It easily fits a helmet, and its under seat storage adds to its practicality. The finely detailed yet lightweight multi-spoke wheel design adds a touch of finesse to this already sophisticated scooter.

 Keeway Versilia 125cc is available in Black, Red, Grey and White.
