Sym Mask 50cc 2024

FREE Top Case Included!

£1,999 +OTR

from £85.71 p/m

SYM MASK 50 boasts a sporty and refined appearance with its combination of sleek design elements. As an entry-level moped commuter scooter, the MASK raises the bar for overall quality and style.

 One of the major highlights of the MASK is the introduction of SYM's innovative A.L.E.H. system (Anti-Lift Engine Hanger system). This unique engine suspension system helps maintain a steady relative position between the engine and the body of the scooter during acceleration, minimizing any instability caused by lifting. This results in a smooth and stable ride for the rider.

 In terms of dimensions, the MASK measures at 1900 x 682 x 1120 mm (L x W x H), with a wheelbase of 1290 mm and a curb weight of 107 kg. The front suspension is a telescopic fork, while the rear suspension is a single shock. The front and rear rims are made of aluminium, with tire dimensions of 110/70-12 and 120/70-12 respectively. The front brake type and diameter is a disk Ø 226 mm, while the rear brake is a drum Ø 110mm. The MASK has a fuel capacity of 6.2 L.

 Under the hood, the MASK features a 4-stroke, single-cylinder engine with a displacement of 49.46 cc. The fuel system is E.F.I. and it complies with the Euro 5 emissions standard. The engine delivers a maximum horsepower of 2.2 kW at 8000 rpm and a maximum torque of 3.0 Nm at 6000 rpm. As per ALL Mopeds, the maximum speed of the MASK is 45 km/h, and it employs a C.V.T. fully automatic transmission system. The engine is air cooled and uses an electric starter.

 If you want capability, accessibility, frugality & reliability MASK is a logical choice with 2 years warranty as standard it should also be a simple choice.
