Keeway XDV 125 Evo Pro 2025

Urban with a wild soul

£2,999 +OTR

from £97.79 p/m

KEEWAY XDV 125 EVO PRO: URBAN WITH A WILD SOUL Keeway proudly introduces the new XDV 125 EVO PRO, a scooter that redefines urban mobility by blending adventure styling, smart technology, and everyday functionality. Designed for modern riders who want to stand out, the XDV 125 EVO PRO is the perfect companion to master the city with style—and to go beyond the pavement with confidence and character.

BOLD DESIGN WITH DISTINCTIVE CHARACTER The Keeway XDV 125 EVO PRO stands out with its aggressive design and adventurous soul. Its sharp lines, elevated stance and detailed finish express strength and personality. Inspired by the trail motorcycle world, its body combines ruggedness and urban elegance, offering a commanding presence that breaks the mold of traditional city scooters.

EFFICIENT ENGINE AND AUTOMATIC TRANSMISSION Powered by a 125cc single-cylinder, 4-stroke, 4-valve liquid-cooled engine, the XDV 125 EVO PRO delivers a smooth, responsive and fuel-efficient ride. With 11.94 hp at 9500 rpm and 9.5 Nm of torque at 7500 rpm, it strikes the perfect balance between urban performance and weekend exploration. The automatic CVT transmission ensures easy handling for riders of all experience levels.

LONG-TRAVEL SUSPENSION FOR GREATER CONTROL Riding comfort and control are enhanced by a 37 mm inverted telescopic front fork with 80 mm travel and dual rear shock absorbers with adjustable preload (60 mm). This suspension setup provides confidence on uneven roads or light off-road trails, delivering a more stable and comfortable riding experience.

ADVANCED TECH FOR EVERYDAY RIDING The full-color 7-inch TFT display offers all key information in a clear and modern layout. The full LED lighting system and USB charging port keep the rider connected and visible at all times. Convenient fuel cap and seat access via the main switch adds practicality, while adjustable brake levers (4 positions) allow for personalized control and comfort.

SPOKE WHEELS AND CST TIRES Equipped with 14” front and 13” rear spoked wheels wrapped in CST dual-purpose tires (110/80-14 and 130/70-13), the XDV 125 EVO PRO is ready for both city riding and light trails. These components enhance shock absorption, improve traction on irregular surfaces, and complete the adventure look with functional style.

SAFE BRAKING WITH ABS The braking system features a 240 mm front disc and a 220 mm rear disc, both supported by ABS for smooth, progressive, and safe stopping power in any condition. Ideal for everyday commuting or unexpected turns off the beaten path.

AVAILABLE COLORS The Keeway XDV 125 EVO PRO comes in two bold color options that reflect its dual nature: urban elegance and adventurous spirit. Dark Soul (Matte Black with Gold Accents): Refined and commanding, the matte black finish with gold accents evokes power, precision and confidence—perfect for riders who rule the streets with style. Urban Wild (Light Grey with Red Accents): Energetic and modern, the light grey with red details speaks of motion, personality and a bold attitude. Built for riders who break routine and explore without limits.
