Lambretta G350 2025

The masterpiece of Italian design

£5,699 +OTR

from £254.7 p/m

COMING SOON - Arriving Mid May 2025 ! The G-Special was originally exhibited at EICMA 2019 bearing the name G325 Special. As the COVID pandemic broke out, the model development, production and it's launch were delayed considerably. After some additional refinements and increasing the engine's displacement, the G325 became the G 350. The G-Special is positioned at the top of the premium market and represents the high-end extension of the existing V-Special range. Its concept and design, curated by Walter Scheffrahn and Peter Beselin, are inspired by the classic designs of the Lambretta's of the past. The whole scooter has a Quality, Integrated feel about it where Form follows Function to provide a truly Refined Ride. Its dimensions are important, like a true iconic object with a great personality. It is also the model with the highest displacement in the premium classic scooter category at 330cc. A very high-quality product that represents the flagship model of the brand. It is presented to the market as a new challenging benchmark in the segment, with features far superior to the competition. The G-Special has a very classic and truly authentic steel full monocoque frame with interchangeable side panels. A smooth, compliant ride is guaranteed with double linkage front suspension. Controlled and Safe braking is provided courtesy of front and rear disc brakes with dual channel ABS, the dash is stylish and easy to read thanks to its TFT display.
