Lambretta

G350 SERIES II

G 350 Series II The G-Special is positioned at the top of the premium market and represents the high-end extension of the existing V-Special range. Its concept and design, curated by Walter Scheffrahn and Peter Beselin, are inspired by the classic designs of the Lambretta's of the past. Its dimensions are important, like a true iconic object with a great personality. It is also the model with the highest displacement in the premium classic scooter category. A very high-quality product that represents the flagship model of the brand. It is presented to the market as a new challenging benchmark in the segment, with features far superior to the competing models. The G-Special has a very classic and precious steel full monocoque frame with interchangeable side panels in compliance with the most authentic tradition of the house. The model features the typical front suspension with double linkage, dual channel ABS, and TFT display.
