## Sym MMBCU 125 2025

Classic Retro Design with Practicality and Style

**£2,999** +OTR

from £120.53 p/m

Sym MMBCU is a crossover scooter. “MMB” stands for “Mamba”, referring to the snake, with a new paint technique for its bodywork that allows it to see different colours depending on the outside lighting, like Mamba snakes, capable of adapting to different scenarios. “CU”, on the other hand, refers to “Crossover Unique”. Its aggressive design, with many edges, does not prevent it from creating an optimal position for driving, making the MMBCU an ideal companion for travelling, with a wide flat platform for the feet and a comfortable seat. Technically, it stands out for its high technological equipment, such as the anti-lift engine (ALEH system), which improves stability during acceleration and the unified zero resistance starter and alternator system (ZRSG), in which the alternator becomes a motor to directly drive the crankshaft and start the engine smoothly and quietly while reducing the weight of the scooter. With this technology, driving is not only safe but also more sustainable. Other notable features of the MMBCU include 100% LED lighting, high-contrast LCD instrumentation, traction control system (TCS) and a 28-litre under-seat storage space that can hold a helmet and more. Embark on the vivid ride with MMBCU 125 ABS around the city and be the spotlight!

Engine

<b>ENGINE TYPE</b> 4-stroke engine, four valve, liquid cooling	<b>RATED OUTPUT</b> 9 kw/7500rpm	<b>EXHAUST SYSTEM</b> Euro 5+ Compliant	<b>FINAL DRIVE</b> Belt	<b>SPARK PLUG</b> N/A
